1. warrant that, for a period of 10 (ten) years as of the date on which the glass is originally shipped to the AGC customer, the coated glass supplied as single glazing will not significantly suffer, under normal conditions of use, any of the following alterations to the coating:
 - peeling or crackling
 - change of appearance in terms of colour.
2. This warranty is valid, provided that:
 - the glass has been specified (e.g. the glass thickness), stored, handled and installed in accordance with the standards or code of good practice standards in force on the market of utilisation (national regulation), as well as with the instructions set out in AGC's documentations;
 - the coating has not been intentionally or accidentally damaged during transport, storage, handling, installation or subsequently;
 - the coating has not come into contact with abrasive agents or corrosive chemicals (acids etc);
 - AGC's processing, storage, installation and maintenance instructions have been complied with in full.
3. Should the coated glass have been incorporated or assembled in any other composite product (insulating glazing, laminated, etc.) by a third party, the said third party is responsible for verifying the compatibility of the other materials (sealing glue, etc.) with the coating.
4. This warranty implies, and is limited to, AGC's commitment to replace the defective glazing free of charge at the place of initial supply, or, should AGC prefer, to refund the purchase price (when the glass is proven to be defective according to the criteria set forth above). AGC will not be liable for any other costs, such as dismantling, re-fabrication and reinstallation costs.
5. Replacement glazings will carry the same warranty as the initial shipment (no extension of the original warranty period). This warranty does not cover glass breakage. Any claim made after the expiration date of the warranty shall not be considered.
6. Any broader warranty, express or implied, given by a third party will not imply an extension of the AGC warranty.
