

# Thermobel Twin Top **New**

AN IDEAL GLASS FOR  
THE RESIDENTIAL MARKET

A glass that guarantees high thermal insulation without compromising on light or free solar energy!

## THERMOBEL TWIN TOP

**A glass without compromise...  
designed for your comfort!**

Product features...

How you benefit!

Good level of thermal insulation – Guaranteed high level of comfort in your home with a  $U_g$  value of  $1.0 \text{ W/(m}^2\cdot\text{K)}$

High light transmission – Lets in the light!  
(LT = 76%)

Very high solar factor (SF = 61%) – Free energy gains from the sun

Very neutral and transparent look – Thermobel Twin Top is in keeping with current design trends for this level of insulation

Thermobel Twin Top is a double glazing unit offering the potential for additional functions – With Thermobel Twin Top, all combinations are possible to meet your additional safety/security, acoustic or design needs

Thermobel Twin Top is ideally suited to the residential market – A highly versatile product: can be used in new builds or renovations, ideally suited for large picture windows, perfect for north-, east- or west-facing facades

A Thermobel product – the go-to brand for insulating glass – Trust in the expertise of AGC's processing network
